Monthly Report

FUND DESCRIPTION

MercLin Global Equity is a subfund of MercLin SICAV. The objective of the fund is to increase the value of your investment over the long term while outperforming the MSCI AC World Euro Index. The composition of the subfund's portfolio may differ significantly from that of its benchmark index. Under normal market conditions, the subfund primarily invests in a diversified portfolio of equities (at least 70% of its assets) and corporate bonds from OECD countries. The subfund may invest directly in shares or bonds or indirectly by investing in units of other investment funds. The fund is actively managed and the composition of its portfolio may differ from its benchmark. The manager invests only in sectors or companies in which it has a good command. It attaches particular importance to the quality of the company and the competitive advantage it has over its competitors. After that, the valuation of the company is obviously essential: paying too much for a good company is a bad investment. There is no magic formula for evaluating companies, each sector has its own specificities and must be analyzed in its own way. The fund is suitable for investors who understand the risks of the fund and who have a minimum investment horizon of 3 to 5 years. This investment policy is also mentioned in the key investor information of the fund.

³ These performance numbers are based on historical data and are no guarantee of future results. YTD: Performance since the 1st of January of the current calendar year. This is a cumulative return. Performance of the MercLin Global Equity F Cap up to 18.08.2008 is that of the Athena Diversified Management Sub-fund, of which the MercLin Global Equity Sub-Fund is an identical successor.

⁶ MSCI AC World Euro Net dividend reinvested. The investment policy of the subfund does not include a tracking error objective with the benchmark. Performances of the subfund may therefore vary from the performance of the benchmark.

MANAGER'S COMMENT

The fund initiated a new position in PTC Inc during the month of December. PTC is a 35-year-old software company founded by mathematician Dr. Samuel Geisberg as Parametric Technology Company with the objective of improving engineering in the manufacturing industry. The company is active in the so-called CAD (computer-aided design) and PLM (product lifecycle management) markets. This kind of software aims to improve the design and documentation process for product development in a wide variety of settings. While CAD and PLM were historically mostly used in industrial manufacturing settings such as automobile production, capital goods and aerospace & defense, today it is expanding quickly to various other sectors that desire to design digitally first, such as the fashion industry, food & beverages and life sciences. Important to know is that PTC has over the last five years successfully transitioned from selling perpetual licenses to a subscription-based revenue model. The next step in this journey is to move from subscriptions to a true software-as-a-service (SaaS) model. What makes this transformation so attractive is that it accelerates growth all the while increasing the company's defensiveness, two attributes that are highly valued by investors and rarely found in one place.

RETURN²

Annualized Returns ⁴	MercLin GE F CAP	MercLin GE R CAP	MercLin GE C CAP	Benchmark
1 year	+30,85%	+30,59%	+30,07%	+27,53%
3 years	+17,61%	+17,37%	+16,91%	+20,59%
5 years	+9,15%	+8,93%	+8,50%	+12,69%
10 years	+11,25%	+11,03%	+10,59%	+13,34%

Since inception	+9,90%	+9,76%	+9,28%	+9,18%
-----------------	---------------	---------------	---------------	---------------

⁴ The return figures indicated above do not include commissions eventually linked to the issuing and redemption of shares, nor stock exchange turnover tax. Based on historical data, which offer no guarantee of future returns and can even be misleading. Performance is calculated on a cumulative basis for periods under one year and on an actuarial basis for periods of over one year. Performance of the MercLin GE F Cap up to 18.08.2008 is that of the Athena Diversified Management Sub-Fund, of which the MercLin Global Equity Sub-Fund is an identical successor. Previous performance is audited by Deloitte.

Class C	1,30% annual	1,46%	LU0379615668	MERLSCX LX

Risk Indicator: Please consult the KIID and/or the Prospectus for more details.

The subfund's risk level reflects the following factor(s):

- Equity investments have greater volatility and higher risk than investments in bonds and money market instruments. The risk level does not reflect the potential impact of unusual market conditions or unforeseen events that may increase risk or trigger other risks such as:
 - Counterparty risk: the subfund can lose money as a result of the failure of a market player with which it does business.
 - Credit risk: risk associated with bonds becoming worthless when the issuer of the bond is not able to repay its debt on maturity.
 - Liquidity risk: some financial securities may be impossible to sell quickly at a given time or may have to be sold at a discount.
 - Management risk: under abnormal market conditions, the usual management techniques may be ineffective or unfavourable.
 - Operating risk: in any market, and especially in the emerging markets, the subfund may lose some or all of its money if there is a failure in the custody of assets or in case of fraud, corruption, political actions or any other adverse event.
